2024 Sunshine Resolution No. 1: 2024 Sunshine Resolution No. 1 was approved upon motion by Wendy Moore and second by Earl Waggoner.

**ENGINEERING & MAINTENANCE MATTERS:**

There is a concern that the tape-grass continues to grow in reservoir #3 and could block the pipe. Nicki Simonson is reaching out to an environmental contractor that specializes in this type of mitigation to get a quote.

It is recommended that the flume box, that was purchased during the reservoir #4 liner repair, be installed after the 2024 priority fills are completed along with approximately 100 yards of ditch repair directly upstream from the flume location. Drawings are already complete for this project.

Repair is also needed at the eroded stream side east dike wall on reservoir #3 and the replacement of warped weirs in boxes on reservoirs #2 and #3, although this is not critical at this time. Lining the dike banks surrounding the reservoir should be a future consideration only if an increase in longer term water storage is deemed necessary.

**FINANCIAL MATTERS:**

Ann English moved to ratify the approval of the December 1, 2023 through January 31, 2024 disbursements. Bruce Newell seconded the motion, and it was approved.

Earl Waggoner then moved to approve the February 1 through February 29, 2024 disbursements which were approved upon second by Ann English.

Earl Waggoner moved to approve the financials for the period ending December 31, 2023. The motion was approved upon second by Ann English. An audit exemption has been completed.
